This class uses scene study to train the actor to recognize and solve problems and to become thinking actors.

**Teen Class**      Ages 13 - 17      45 minutes to two hours\*      1 X Weekly      \$50/month  
This class covers the basics of acting and developing the actor's instrument: the body and voice. Actor exercises are used to determine levels of ability. Once skill level is established, we focus on rounding out the whole actor. The goal is to develop a realistic acting style.
